## SUMMARY

Frontend web developer with a strong foundation in modern web technologies, including HTML, CSS, JavaScript, and React. Additionally skilled in Python and Django, with a passion for building innovative and user-friendly web applications

## EXPERIENCE

### Python Developer Intern

Pauzii Techi

June 2023 - December 2023, Osogbo

- Gained hands-on experience in Python development through small projects and mentorship from senior developers.
- Explored various libraries and frameworks, with a focus on Django, gaining practical knowledge of its features and applications.
- Developed problem-solving skills and significantly improved coding abilities.

### Computer Instructor

Radiant Glory School

August 2022 - October 2022, Osogbo

- Designed and delivered interactive lesson plan.
- Taught foundational computer concepts, such as typing, mouse skills, and software applications.
- Managed and maintained computer labs and classrooms ensuring technology and resources were up to date and functional.
- Provided technical support to teachers and staff, honing problem-solving skills

## PROJECT

### EasiPharma

Stackup • [github.com/olamilekan5162/EasiPharma](https://github.com/olamilekan5162/EasiPharma) • March 2025 - March 2025

- Collaborated with a skilled team of frontend developers to design and develop an AI-powered Pharmaceutical Inventory Management System. Leveraging React.js, Firebase, and GeminiAI, this innovative platform optimizes inventory tracking, automates replenishment, and enhances supply chain efficiency for pharmaceutical organizations.

### MathLab

Stackup • [github.com/olamilekan5162/mathLab](https://github.com/olamilekan5162/mathLab) • February 2025 - February 2025

- Collaborated with a team of frontend developers to design and develop an AI-powered mathematics practice application, utilizing React.js, Firebase, and OpenAI. This innovative platform provides personalized math practice and real-time feedback, enhancing the learning experience for students.

### DexMarket

Kodespot • [github.com/olamilekan5162/DexMarket](https://github.com/olamilekan5162/DexMarket) • November 2024 - December 2024

- I designed and developed a blockchain-based, decentralized product marketplace, collaborating with a skilled team of smart contract developers. By leveraging React, Tailwind CSS, and the Ethereum blockchain, we created a seamless and intuitive user experience that empowers buyers and sellers to transact securely and efficiently.

## EDUCATION

### B.Eng Computer Engineering

University of Ilorin • Ilorin, Nigeria. • 2024

## SKILLS

Language: Html, Css, Javascript, Python

Framework/Libraries: React, Django, Tailwind

Tools: Git, GitHub
