## SUMMARY

Frontend web developer with a strong foundation in modern web technologies, including HTML, CSS, JavaScript, and React. Additionally skilled in Python and Django, with a passion for building innovative and user-friendly web applications

## EXPERIENCE

### Frontend Developer

LevelUp Inc.

August 2025 – Present

- Contributing to the development and maintenance of an e-learning platform using React.js and TypeScript.
- Collaborate with the frontend team to implement new features, enhance UI performance, and ensure a smooth learning experience for users.

### Python Developer Intern

Pauzii Techi

June 2023 – December 2023, Osogbo

- Gained hands-on experience in Python development through small projects and mentorship from senior developers.
- Explored various libraries and frameworks, with a focus on Django, gaining practical knowledge of its features and applications.
- Developed problem-solving skills and significantly improved coding abilities.

### Computer Instructor

Radiant Glory School

August 2022 – October 2022, Osogbo

- Designed and delivered interactive lesson plan.
- Taught foundational computer concepts, such as typing, mouse skills, and software applications.
- Managed and maintained computer labs and classrooms ensuring technology and resources were up to date and functional.
- Provided technical support to teachers and staff, honing problem-solving skills

## PROJECT

### Level Up

LevelUp Inc. · [github.com/levelupdevs1/levelup-curriculum](https://github.com/levelupdevs1/levelup-curriculum) · September 2025 – Present

- Collaborated with a skilled team of frontend developers to design and develop an e-learning platform. Leveraging React.js, and Supabase. This is an open-source learning platform where developers earn rewards for learning and contributing

### QuickPay

Afriment · [github.com/olamilekan5162/quickpay-frontend](https://github.com/olamilekan5162/quickpay-frontend) · October 2025 – November 2025

- Collaborated with a team of frontend developers to design and develop a micro-payment platform that allows small hustlers and vendors to generate instant payment links, utilizing React.js and Firebase.
- Implemented the core authentication and payment flow by integrating Firebase for user login and Paystack (checkout support) to enable secure, instant payment link generation without a custom backend.

### DexMarket

Kodespot · [github.com/olamilekan5162/DexMarket](https://github.com/olamilekan5162/DexMarket) · November 2024 – December 2024

- I designed and developed a blockchain-based, decentralized product marketplace, collaborating with a skilled team of smart contract developers. By leveraging React, Tailwind CSS, and the Ethereum blockchain, we created a seamless and intuitive user experience that empowers buyers and sellers to transact securely and efficiently.

## EDUCATION

### B.Eng Computer Engineering

University of Ilorin · Ilorin, Nigeria. · 2024 · 3.98

## SKILLS

Language: HTML5, CSS3, Javascript, Typescript, Python

Framework/Libraries: React.js, Next.js, Django, Tailwind

Tools: Git, GitHub, Jest, Vite, Figma

Others: Supabase, Firebase
